

## What Is It?

**"It's an energy field created by all living things. It surrounds us and penetrates us. It binds the galaxy together."**

**"When you are born, you have an energy field around you. You could call it an aura. An archaic description would be a halo. . . . When you die, your energy field joins all other energy fields in the universe, and while you're still living that larger energy field is sympathetic to your own energy field."**

**-George Lucas**
